"This fifth edition... details the emergence and current status of 141 U.S. industries and industry segments, an increase of 26 over the previous edition... Entries for each industry are well written and provide relevant factual data organized under uniform headings, which include "Industry Snapshot," "Organization and Structure," "Background and Development," "Current Conditions," and "Industry Leaders" among others..." This valuable resource is completed by an industry index... and a general index, which includes company names. It is recommended for all business collections; job seekers especially will make use of its complete and detailed industry profiles."
