<http://www.trapperpredatorcaller.com>
 CTA's primary concern is California's fur bearing mammals, and the category of small predatory mammals. Approximately 20 of the association's 2,400 members do lengthy studies and assist State and Federal Agencies in the field with their biologists. Educational forums and talks are hosted at local universities. Farming agencies and timber companies commonly use their services. Members commonly work for numerous environmental public projects, both public and governmental.

 The Environmental Defense Center is a nonprofit, public interest organization that provides legal, educational and advocacy support to advance environmental quality. EDC primarily serves community groups on California's South Central Coast. EDC selects cases and projects that preserve the environment for future generations, protect human health, promote appropriate management and use of natural resources, and enhance the character of the community.
 Linda Krop, Executive Director
