Weather America

“Outstanding Reference Source”

–American Libraries

“Best Reference Source”

–Library Journal

“This is the best source for US climatological information for the last 30 years, with regards to both comprehensiveness and price. Highly recommended for all libraries.”

–Choice

“Provides extensive climatological data for over 4,000 places in the United States. The combination of usability with the currency of data, breadth of scope, narratives, maps, detailed entries and ranking tables makes Weather America an instant standard reference tool.”

–American Libraries

“This highly original reference work provides extensive climatological data organized by state... A valuable ready-reference for most collections.”

–Library Journal

“Libraries that need detailed weather data for more than just US cities will find Weather America a handy compilation of data.”

–Booklist

“The potential for noting climate trends is perhaps greater here than from any other set of data. This work is recommended as a standard for all libraries.”
