Introduction	vii
Hispanic Political Leadership Facts	ix
Why Latinos Need to Register and Vote	xi
User’s Guide	xiii

SECTION ONE: National Profile

2010 Census Profile	3
Top Congressional Districts by Latino Share of Population	5
National Profile	7
Hispanic/Latino Population for the United States and States: 1980 to 2010	11
National Maps Showing Percent of State Population for All 23 Hispanic/Latino Groups	15

SECTION TWO: State & Place Profiles

For a place (city, town, etc.) to be included in this section, it must meet one of two criteria. Either its overall population is at least 125,000, OR its overall population is at least 25,000 and its Hispanic/Latino population is at least 20% of the overall population. For those states where less than five places meet either of these criteria, we have included places with total population of 10,000 or more with the highest percentage of Hispanic/Latino population, so that each state is represented by at least five places. This section starts with the state profile, followed by place profiles that meet the criteria above. Places are listed alphabetically within each state. Each profile contains data for 26 topics, if available.

Alabama	41
Alaska	48
Arizona	54

Households with \$100,000+ Income	1629
Households with Food Stamps/SNAP Benefits During Past 12 Months	1653
Poverty Rate	1677
Alphabetical Place Name Index	1703

Introduction

This is the third edition of *The Hispanic Databook*. The second edition coincided with the Hispanic/Latino population becoming America's largest minority at 38.8 million. Today, the number of Hispanics/Latinos has surpassed 50 million, and is the fastest growing group in America.

This premier reference book includes detailed data on national, state, county, and place (city, town, etc.) levels. It contains profiles on 782 places with the highest concentrations of Hispanic/Latino population, comprising 23 ethnic backgrounds from Argentinean to Venezuelan, and includes 26 topics, including Homeownership, Income, Language Spoken, Jobs, Rent, and Poverty. In addition to providing significant facts and figures, *The Hispanic Databook* also compares and ranks all states, counties and places by all topics—allowing users to get to exactly the data they need in minutes.

New Features

Data in this edition is arranged alphabetically by state, then place, making it easy to research by place or region. There are 26 topics covered—11 more than the last edition—for a detailed look at where and how Hispanics live, work, and learn in America. Also new to this edition are four-color U.S. maps—one for each ethnic background, showing at-a-glance where in America each group is concentrated.

In addition to being easy to use, with more topics and color maps, this edition includes informative articles from NALEO—National Association of Latino Elected Officials—that discuss Hispanic Political Leadership, the Latino vote, and 2010 Census data.

More Data on Companion Web Site

In an effort to keep this print edition to a manageable size, our inclusion criteria for places is overall population of 125,000 OR Hispanic/Latino population of at least 25,000 where Hispanics/Latinos comprise at least 20% of the total population. For those states where less than five places meet either of these criteria, we have included places with total population of 10,000 or more with the highest percentage of Hispanic population, so that each state is represented by at least five places. This includes 782 places plus all 50 states and the District of Columbia.

To address places with Hispanic/Latino population that did not meet our population cutoff, we have developed a website that includes, not only 11,242 more places than the print edition, but also 10 more topics. Access to this incredible amount of valuable data is available at no additional cost, with the purchase of this print edition. Visit the following website for more information: http://gold.greyhouse.com/page/info_hispanic

Section One: National Profile

Starting with a census summary of the Hispanic/Latino population, this section provides national numbers for the 23 Hispanic/Latino backgrounds that comprise this demographic as they relate to each of the 26 topics. In addition, this section includes 23 maps to easily see where each ethnicity lives. This section also includes the top congressional districts by Latino share of the population, and a historic look at the Hispanic/Latino population for the entire United States as well as the 50 states from 1980 to 2010.

Section Two: State & Place Profiles

Arranged by state, this section profiles all places (cities, towns, etc.) where the overall population is at least 125,000, OR the overall population is at least 25,000 and its Hispanic/Latino population is at least 20% of the overall population. For those states where less than five places meet either of these criteria, we have included places with total population of 10,000 or more with the highest percentage of Hispanic population, so that each state is represented by at least five places.

Each place is then arranged by topic (High School Graduates, Homeownership Rate, Language Spoken at Home, etc.), and each topic provides the number/percentage of each ethnicity (Cuban, Mexican, Chilean, etc.) in that place. Using the profiles, researchers will learn that the median household income of Chileans in Miami, FL is \$60,915 and that 35.2% of Bolivians in Providence, RI are four-year college graduates.

Section Three: Rankings & Comparisons

This section contains 1,988 charts that rank the top 10 states, counties and places for all 26 topics and 23 Hispanic groups. All topics are ranked by number and many also by percentage, in both ascending and descending order. For comparative purposes, the U.S. figures are included in each table. Using the rankings, researchers will learn that Charlotte, NC showed the greatest growth in the Argentinean population between 2000 and 2010 (317.9%) and Yonkers, NY has the highest median home value for Hondurans (\$875,000).

An alphabetical list of all 782 places in *The Hispanic Databook*, with its county and state, appears after this section.

Alabama

EDITOR'S NOTE: For a place to be included in this edition, it must meet one of two criteria. Either its overall population is at least 125,000, OR its overall population is at least 25,000 and its Hispanic/Latino population is at least 20% of the overall population. In Alabama, less than five places meet either of these criteria. In an effort to include at least five places for each state, we have included places with at least 10,000 total population with the highest percentage of Hispanic/Latino population. These places are identified with an asterisk (*). For the state of Alabama, the following locations are included:

- Albertville*
- Birmingham
- Huntsville
- Mobile
- Montgomery

Section Two: State & Place Profiles starts with the state profile, followed by place profiles that meet the criteria above. Places are listed alphabetically within each state. All states, all counties and places that meet the above criteria are ranked and compared in *Section Three: Rankings & Comparisons*, on page 1055.

For a more detailed look at the Hispanic/Latino population in Alabama, a companion web site is available at no additional charge with purchase of this print edition. Visit http://gold.greyhouse.com/page/info_hispanic for more information.

The web site includes data for all counties and places in Alabama with Hispanic/Latino population, plus ten additional topics: Self Employed Worker; Walked to Work; Worked from Home; Mean Travel Time to Work; Mean Household Income; Households with Cash Public Assistance; Mean Cash Public Assistance; Poverty Rates for 18 and Under, 18 to 64, and 65 and Over.
