Grey House Publishing announces the 2022/2023 Edition of the *Older Americans Information Resource*

This fourteenth edition of *Older Americans Information Resource* is designed for one of America's largest growing populations, with resources to help aging Americans lead happy and productive lives. Its nearly 10,000 listings, two glossaries, and three indexes have made it a repeat winner of the **National Mature Media Award**, recognized as "the best in advertising, marketing and educational materials for older adults."

Following this Introduction, a detailed 2022/2023 Profile of Older Americans from the Administration on Aging defines America's seniors by 14 categories, including future growth, income, employment and care giving. Also included is a sixteen-page report with facts and figures about Alzheimer's Disease.

The second, *Glossary of Legal Terms*, includes 22 in-depth situations older Americans may commonly find themselves in.

Helpful Indexes

Three indexes offer additional ways to access this resource's content. The *Entry Index* is an alphabetical list of all entries available in the text.
