**Grey House Publishing announces the 2021/22 Edition of
*America's Top-Rated Smaller Cities***

Grey House Publishing is proud to announce the publication of the 2021/22 edition of *America's Top-Rated Smaller Cities*. This twelfth edition offers current, concise statistical profiles of top U.S. cities with populations between 25,000 and 100,000. The 2021/22 edition features 132 cities, 43 which are new to this edition, including 20 that have never been profiled.

There are many ways to research new places to live. The Internet can provide important details, like the cost of various lifestyles in various cities, and which schools are top rated, but only *America's Top-Rated Smaller Cities* gives readers a complete picture. We've done the extensive research necessary to compile comprehensive profiles and comparative statistics that will inform and educate.

America's Top-Rated Smaller Cities is arranged in two volumes – Volume 1 has 73 city chapters, Alabama to Montana, and Volume 2 also has 59 city chapters, New Hampshire to Wyoming. Each city chapter is divided into three sections: **Background & Rankings; Business Environment; and Living Environment**. Both volumes include **100 Honorable Mention Cities**, five **Maps** that indicate the location of each of the 132 cities, and five **Appendices**, with comparative rankings and resource information on all the cities.

Each of the 132 city chapters begins with an informative city background. These combine history with current events, and touch on the city's environment, politics, employment, and cultural offerings, along with some interesting trivia.

The rankings section has 17 ranking categories, including *Business/Finance, Health, Women/Minorities, Retirement, Family, Safety, Sports/Recreation, and Dating/Romance*. It contains data from 242 books, articles, and research reports, and is presented in an easy-to-read, bulleted format. You'll find rankings and several scores and figures on a wide variety of topics, such as **Best Places for Business and Careers, Fastest-Growing Cities, Cleanest Metro Areas, Most Affordable Cities, Fittest Cities, Most Educational Cities**, and hundreds more.

Business Environment-Statistical Tables include 39 tables with business related data for seven topics. Over 95% of statistical data has been updated. Here is where you will find hard facts and figures on city finances, population demographics, income, bankruptcy rates, employment, and taxes. The business tables are followed by 47 **Living Environment-Statistical Tables** with data related to nine living

environment topics. These include information on housing, healthcare, cost-of-living, education, air quality, and climate.

Also included in this new edition are five **Appendices**:

- Comparative Statistics
- Metropolitan Area Definitions
- Government Type & Primary County
- Chamber of Commerce
- State Departments of Labor

TWO YEARS OF FREE ONLINE ACCESS

Buyers of *America's Top-Rated Smaller Cities, Two-Volume Set* get two years of FREE access to Top-Rated Smaller Cities Online. Here, users can download city reports, sort & rank cities by over 50 different data points and access customized ranking tables.
