**Grey House Publishing Announces the 2022 Edition of
*Food & Beverage Market Place***

Grey House Publishing is proud to announce the publication of the 2022 edition of *Food & Beverage Market Place*. This updated edition is the most comprehensive resource of U.S. food and beverage manufacturers and service suppliers available on the market today.

In three information-packed volumes, *Food & Beverage Market Place, 2022* details over 45,000 company profiles that address all sectors of the industry—finished goods and ingredients manufacturers, equipment manufacturers, and third-party logistics providers, including transportation, warehousing, wholesalers, brokers, importers and exporters.

As the country begins to recover from the COVID-19 pandemic, the food industry is reporting a number of trends, some surprising and some not surprising at all. Predictably, there is an increased interest in health and wellness products, specifically probiotics and nutrition supplements. Sales of plant-based and alternative meat products continue to grow, as has frozen fish. The beverage sector sees continued growth in alcohol sales, especially wine and, at the same time, increased interest in products with no and low alcohol content. Coca Cola, too, is seeing sales move towards pre-pandemic numbers.

Online shopping and meal kits are expected to be a permanent shift in consumer behavior overall. Many also see the shift to cooking and eating at home a permanent one, as Americans are enjoying the family connections and closeness that it fosters. As Americans do begin to venture back into eating out, popular options include self serve and food kiosks.

Each of the eight chapters in *Food & Beverage Market Place* reflects a massive update effort. This 2022 edition includes hundreds of new company profiles and thousands of updates throughout the three volumes. You will find 81,887 key executives, 22,592 web sites, and 14,755 e-mails. The volumes break down as follows:

- Volume 1 - Food, Beverage & Ingredient Manufacturers - 14,136
- Volume 2 - Equipment, Supply & Service Providers - 13,440
- Volume 3 - Third Party Logistics
 - Brokers - 1,288
 - Importers & Exporters - 8,804
 - Transportation Firms - 709
 - Warehouse Companies - 1,045
 - Wholesalers & Distributors - 5,907

In addition to company profiles, this edition has 17 indexes, 15 chapter-specific, arranged by geographic region, product or company type, and two—All Brands and All Companies—that comprise all three volumes. Plus, chapters include User Guides that help you navigate chapter-specific data.

We are confident that this reference is the foremost research tool in the food and beverage industry. It will prove invaluable to manufacturers, buyers, specifiers, market researchers, consultants, and anyone working in food and beverage—one of the largest industries in the country.

Praise for previous editions:

“...This set can be used to find basic information or to track trends in a dynamic industry... Recommended for large public or academic libraries.”

“...Each volume contains helpful user guides and key that describes the field of data that appear in that chapter.... This publication is essential for researchers in the food industry, and large academic and public libraries.”

—American Reference Books Annual
